### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: delete the following second occurrence claim recitation in claim 1:

elastomeric materials having constituents which are not confined to carbon and hydrogen and which include, in addition to carbon and hydrogen, other atomic species as constituents

It appears that recitation is repeated in claim 1 and does not further limit the claimed invention such that only one recitation is necessary for patentability.

The following is an examiner's statement of reasons for allowance: The claimed invention including oxyfluorinating solid material activation from groups consisting of carbon, carbon and hydrogen confined polymeric materials, carbon and hydrogen non-confined elastomeric materials, and mixtures of any two thereof in an open ended reaction chamber exposure with water vapor acting to enhance amenability of the exposed surface, provided by the oxyfluorination achieved by gases, to adhesive bonding to other materials is not found in the prior art either singly or in combination.

Art Unit: 3749

The closest prior art are Mori et al. (US 6,620,282) which discloses solid bonding with out an agent but not the independently claimed carbon and Vargo et al (US 6,790,526) which discloses oxythalopolymer adhesive composite with covalently bonded carbon polymer but not the necessary motivation or combination suggestion to obviate the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Gravini whose telephone number is 571 272 4875. The examiner can normally be reached on normal weekday business hours (east coast time).
